SC 4 — SC 2004/DI 102+

SENATE CONCURRENT RESOLUTION

A CONCURRENT RESOLUTION urging employers to support employees serving in reserve units and in the National Guard. (This resolution was prepared by the commission on military and veterans affairs.)

Whereas, The events of September 11, 2001, have had a tremendous effect on life in the United States and in Indiana;

Whereas, Employers in the United States and Indiana are recognizing that workers who serve in the National Guard and reserve units of the armed forces are critical to the nation's defense, including the war on terrorism;

Whereas, Indiana employers with the means to do so are supporting their employees who are called up to serve in the National Guard and in reserve units by such actions as pledging to make up the difference between the employees' civilian and military pay and continuing the workers' benefits; and

Whereas, Indiana employers that are not able to make such a generous pledge are publicly assuring their employees that the employees' military commitment is appreciated and will not be used as a reason to deny the employees promotions and raises: Therefore,

Be it resolved by the Senate of the General Assembly of the State of Indiana, the House of Representatives concurring:

1 SECTION 1. That Indiana General Assembly commends the efforts
2 of Indiana employers to support their employees who are called up to
3 serve in the National Guard and in the reserve units of the armed forces
4 of the United States and urges every Indiana employer to support those
5 employees called to service in the armed forces to the extent and in the
6 most generous manner possible.

7 SECTION 2. That copies of the resolution be transmitted by the
8 Secretary of the Senate to the Governor and to the Adjutant General of
9 the Indiana National Guard.
